

15th April 2020

Dear Resident/Business Owner

A133 Colchester to Clacton Route Improvements Overnight road closures – Frating Roundabout Fri 17th April - Fri 1st May 2020.

We are writing to advise you that it will be necessary to temporarily close Frating Roundabout on A133, overnight from Friday 17th April until Friday 1st May 2020 to undertake roundabout surfacing works. The specific details of the phased road closures for each leg of the roundabout are detailed below: -

- **Friday 17 April until Monday 20 April** - A133 West leg from Frating Roundabout
- **Monday 20 April until Friday 24 April** - A133 East leg from Frating Roundabout
- **Monday 27 April until Friday 1 May** - A120 Spur from Frating Roundabout

The roundabout will close at 6pm each night and re-open by 5am the following morning. We appreciate that the A133 is a traffic sensitive route and these works may cause temporary inconvenience to local residents, for which we would like to apologise.

During the closure periods, motorists are advised to follow the signed diversion route that will be in place. For further details, please see diversion routes for each of the phased road closures on 'A133 Colchester to Clacton Route Improvement' Website. It should be noted that access for emergency vehicles will be made available where possible, and bus services serving the local Clacton area will operate as usual. We would encourage drivers to plan journeys during these works and allow extra travelling time.

Please also note that during the surfacing works, there may be occasions where drivers using the roundabout approaches will be running on a temporary surface. Drivers are advised to exercise caution when travelling through the area.

Arrangements may be subject to change, for example if the work is completed earlier than planned or if the works are delayed due to unsuitable weather conditions.
